

PRESIDENT'S MESSAGE: This is a welcome back to all you good people who have been enjoying the fine ... and not so fine ... weather in warmer climates.

When the sweet showers of April fall and shoot  
Down through the drought of March to pierce the root.

- Chaucer

About the time Chaucer wrote these lines, an Inn was opened for business called "George And The Dragon." A hungry tramp knocked on the door, and asked for some food. The woman who answered slammed the door in his face. A few minutes later he knocked on the door again, which was opened by the same woman. "Please M'am, the tramp said, "May I now speak to George?"

You may enjoy these thoughts of Emerson:

Let a man learn to look for the permanent in the mutable and fleeting;  
let him learn to bear the disappearance of things he was wont to reverence,  
without losing his reverence; let him learn that, though abyss open under  
abyss, and opinion displace opinion, all are at last contained in the Eternal  
Cause.

## ECCENTRIC

Our news is free from obscenity,  
And occasionally excites risibility,  
Our aging heroes,  
In type get zeros,  
Or lacking in visibility.

Chris writes our news with a lot of style,  
And keeps it accurate all of the while,  
We like him to write,  
He makes our day bright,  
Reading "filler" is like reading a file.

### Song of Seasons ...

A garden is a lovely thing,  
That must be spaded in the spring,  
Weeded when the summer's searing,  
Mulched in fall when winter's nearing,  
Of all the seasons, do you wonder,  
I like it best when it's plowed under.

### IN THE SPRING

While young men's fancies may be turning lightly  
To thoughts of love and dancing almost nightly,  
Some older men may find their thoughts are straying  
To income tax returns and crab grass spraying

Your contributed items and helpful suggestions are much  
appreciation and will always merit due consideration.

Please be assured that they will not be treated like a list  
of suggestions sent in by a reader in Wisconsin to the editor  
of a small town paper.

She itemized the suggestions and hoped they would be carried out.

The editor read them, threw them in the basket and told the office  
boy to "carry them out."

He then answered the letter and assured the reader that her  
suggestions had "all been carried out."

So, to Fred Floeter and the rest of you . . .
