JUST A THOUGHT FOR OUR MEMBERS

As many of you know, our Club was started in 1957 by a small group of interested senior citizens of this area. At the first official meeting, there were three men present, one of which was our present Historian, "Moe" Henshaw. In one year, the membership had grown to some 74 men, and there are seven of these men still active in our club as of today.

Since then, our Club has grown to its present size of 325 active members, 11 associate members, and we have a waiting list of some twenty as of this writing.

Our activities have been expanded over the years and a greater number of our members are participating as we go along.

While the Club has been growing rapidly, we have continued to attract the type of men, who seem to enjoy our various activities and meeting their fellow members. As you all are aware, we have no "social stratas" and no "snobs" in our membership. Our one great thing we have to offer is good honest fellowship and let's try to always keep it that way.
